ABOUT ME

I am a final-year Computer Science undergraduate at the University of Jaffna with hands-on experience in full-stack web application development. Through academic projects, I have developed strong analytical, programming, and problem-solving skills with attention to detail. I am interested in building efficient and scalable software solutions and exploring modern technologies, particularly in cloud computing. I'm currently seeking new opportunities, graduate roles and collaborations where I can learn fast, contribute meaningfully and grow as an engineer.

WORK EXPERIENCE

Intern Software Engineer

Guardians Solutions Pvt. Ltd.
June 2026 – Present

- Assist in developing, testing, and maintaining web applications and software features.
- Collaborate with developers and QA engineers to troubleshoot issues, implement fixes, and validate functionality.
- Learn and apply software engineering best practices, including version control, debugging, testing, and secure coding.

PROJECTS

E-Commerce Platform for Optical Shop (React, Node.js)

01/2025 – 10/2025

- Developed an optical shop management system for staff to manage customers, medical history, payment details, and role-based access.
- Implemented administrative features for managing staff and viewing daily reports.

ShopHub — Online Shopping Platform (React, Node.js, SQLite)

06/2026

- modern online shopping platform where users can browse, purchase products securely.
- It provides authentication, multiple payment options, order tracking, refunds, and a comprehensive admin panel.

Examination Claim System (PHP, HTML, CSS, MySQL)

07/2024 - 10/2024

- Developed a web-based Examination Claim System for the Computer Science Department to streamline the submission and processing of examination-related claims.
- Implemented using HTML, CSS, PHP, and MySQL, enabling staff to submit claims for setting, moderating, and supervising exams.

Ongoing Research Project - Individual (IoT, AI/ML, Python)

- Conducting research on IoT-based health monitoring and anomaly detection, leveraging real-time physiological data to identify and predict abnormal health patterns.

EDUCATION

Bachelor of Science (Hons) in Computer Science
Current GPA - 3.63 / 4.00

University of Jaffna
2022 - Present

Ferguson High School, Rathnapura.

Advanced Level Studies

SKILLS

- **Programming** — Java, Python, JavaScript, PHP
 - **Web Development** — React, Node.js, HTML, CSS
 - **Database Management** — MySQL, MongoDB
 - **Version Control** — Git, GitHub
 - **Cloud & DevOps** — AWS (Basics), Docker
 - **Software Testing** — Unit Testing, Debugging
 - **Problem-Solving**
 - **Leadership & Project management**
-

CERTIFICATIONS

- Udemy - Python Programming Language
 - Linux Foundation - Secure AI/ML driven Software Development
 - AWS - Getting started with AWS Cloud Essentials
-

VOLUNTEER WORK

- | | |
|--|------|
| • Secretary, IEEE Student Branch, UoJ | 2025 |
| • Treasurer, IEEE Computer Society Student Branch Chapter, UoJ | 2025 |
-
