University of Jaffna.

Offer of Internship Appointment – Industrial Training Program 2026

Dear Ms. Dilhara,

We are pleased to formally offer you the position of **Software Engineer Intern** at **Guardians Solutions (Pvt) Ltd** in fulfillment of the Industrial Training requirement of your BSc (Hons) in Computer Science Degree Program conducted by the Department of Computer Science, Faculty of Science, University of Jaffna.

Your internship training period will commence on **10 June 2026** and continue until **11 December 2026**, covering the required duration of **24 weeks**.

Internship Details

- **Position** : Software Engineer Intern
- **Division** : Development Division
- **Reporting To** : Technical Lead / Project Supervisor
- **Work Arrangement** : Hybrid / Remote
- **Working Hours** : 8.00 AM – 5.00 PM
- **Internship Period** : 10 June 2026 – 11 December 2026
- **Duration** : 24 Weeks
- **Allowance/Stipend** : As per company policy

Training Scope and Responsibilities

During the course of your internship, you will receive practical exposure to professional software engineering environments and participate in industry-level software development, system design, and product engineering activities. Your responsibilities and learning areas will include, but shall not be limited to, the following:

- Assisting in the design, development, testing, deployment, and maintenance of software applications and enterprise systems
- Working with industry-standard programming languages, software frameworks, development tools, and engineering methodologies to build scalable and reliable software solutions
- Contributing to software development projects by implementing new features, enhancing existing functionalities, and resolving technical issues
- Participating in software research, coding, debugging, testing, code reviews, documentation, and continuous improvement initiatives
- Assisting in the design and development of APIs, backend services, system integrations, and software components to support business and technical requirements
- Utilizing SQL and database technologies to retrieve, manage, process, and optimize application data efficiently
- Understanding software architecture principles, object-oriented programming concepts, design patterns, and secure coding practices
- Assisting in system analysis, requirement gathering, technical documentation, and solution design activities throughout the software development lifecycle
- Gaining exposure to cloud technologies, deployment processes, version control systems, CI/CD pipelines, and modern software delivery practices
- Participating in Agile software development methodologies, sprint planning, task estimation, daily stand-up meetings, and collaborative workflows using industry-standard tools such as GitHub and Jira
- Working in coordination with Quality Assurance (QA), UI/UX, DevOps, cybersecurity, and other cross-functional teams to ensure the delivery of high-quality software products
- Assisting in identifying, analyzing, and resolving software defects, performance bottlenecks, and system integration challenges

- Gaining practical exposure to industry-level coding standards, software engineering best practices, release management procedures, and professional development workflows
- Understanding software performance optimization, scalability considerations, system reliability, and maintainability principles
- Developing professional communication, teamwork, problem-solving, presentation, technical documentation, and project collaboration skills within a corporate software engineering environment

You are required to maintain the highest standards of professionalism, confidentiality, integrity, and ethical conduct in relation to all company operations, software systems, client information, credentials, source code, documentation, and proprietary processes.

All software, developments, research materials, documentation, designs, AI models, source code, and other intellectual property created or contributed to by you during the internship period shall remain the exclusive property of Guardians Solutions (Pvt) Ltd.

The Company reserves the right to terminate this internship appointment at its discretion in the event of misconduct, breach of confidentiality, violation of company policies, unsatisfactory performance, or failure to maintain professional standards.

Please note that this internship appointment shall not be construed as an offer of permanent employment. However, interns demonstrating exceptional performance, commitment, and professional competency may be considered for future employment opportunities within the Company.

Kindly confirm your acceptance of this appointment by signing and returning a copy of this letter.

We are delighted to welcome you to Guardians Solutions (Pvt) Ltd and wish you a productive, insightful, and successful internship experience.

Yours faithfully,
Guardians Solutions (Pvt) Ltd.

.....
Sanjaya Kumar
Chief Executive Officer
Guardians Solutions (Pvt) Ltd

Acceptance by Intern

I hereby confirm my acceptance of the internship appointment and agree to comply with all terms, conditions, policies, and professional obligations stated herein.
